### Depth Of Knowledge Decommoncore

Distinguishing between Webb's Depth of Knowledge (DOK) levels can be challenging for secondary mathematics teachers as examples are often too vague to be useful. It is critical that teachers expose students to tasks at all DOK levels so they have experience demonstrating the deeper understandings called for by the Common Core State Standards.

### Depth of Knowledge Examples for Secondary Mathematics ...

Depth of Knowledge or DoK is another type of framework used to identify the level of rigor for an assessment. In 1997, Dr. Norman Webb developed the DoK to categorize activities according to the level of complexity in thinking. The creation of the DoK stemmed from the alignment of standards to assessments.

### Bloom's Taxonomy and Webb's Depth of Knowledge

Depth of Knowledge, or DOK, is a way to think about content complexity, not content difficulty. That is the first thing with which people must come to understanding. Complexity is different from difficulty. For example, if students have not seen the word or content before, it might be difficult for them, but it is not complex.

### Professional Development / Depth of Knowledge (DOK)

The low Core Standards for Literacy and Mathematics have been coded for cognitive complexity using Webb's Depth of Knowledge (DOK) approach. The DOK describes the kind of work required by students to demonstrate their attainment of the standard.
