In actuality, economics and market factors dictate that physicians earn compensation at varied rates per wRVU produced. In the example below, we are using Medical Group Management Association (MGMA) National data to calculate potential rates for neurology. We start by observing the median level of total compensation.

Work RVU Compensation Models: Best Rate Determination | HSG

Fortunately, there exists ample survey data detailing compensation and wRVUs for almost all specialties and sub-specialties. It is important to select a survey source or sources that are appropriately matched to organization, market, specialty, and practice type (i.e., academic vs. non-academic). With a thorough

WORK RVU COMPENSATION MODELS: BEST RATE DETERMINATION

My academic hospital changed from paying medical directors at your hourly clinical revenue to paying 50% of migma. A pay cut for me for work done that helps beyond my patient panel. Kind of sucky but the pattern across all departments now. Several departments are using internal funds to make sure there isn't an effective pay cut.
