### Web Usability 2 0 Lusabilit

As so many discussions about Web 2.0 focus on the technology and methods, it is often forgotten the most important part, usability, the experience of the user. Web 2.0 has brought technologies that can be used to create a more interactive and better experience for the customer. Some of the technologies that have been developed include RSS (Really Simple Syndication) and Ajax. Ajax is a web technique that makes pages feel more responsive, making pages more functional and faster.
