### MANUAL | meaning in the Cambridge English Dictionary

Is a manual faster than an automatic? In most cases, an automatic car will be quicker than a manual transmission car equivalent, which takes time to shift gears.

### Manual vs. Automatic Pros and Cons: Which Is Better? | Edmunds

Bottom line: Ultimately, you will almost certainly be able to create a faster implementation in C++ than you could in C#. Now, with that said, how much faster really isn't quantifiable, as there are too many variables: the task, problem domain, hardware, quality of implementations, and many other factors.

### How much faster is C++ than C#? - Stack Overflow

It is somewhat faster than the text and CSV formats, but a binary-format file is less portable across machine architectures and PostgreSQL versions. Also, the binary format is very data type specific; for example it will not work to output binary data from a smallint column and read it into an integer column, even though that would work fine in ...

Isuzu of Japan introduced the KB20 / 25 series Faster pickup in 1972. The regular wheelbase models were designated "20", while "25" referred to the longer version. Derived from the Isuzu Florian, the Faster shared many components, including doors and the front-end assemblage. It served as a replacement for the Isuzu Wasp, a pickup version of the Bellett which preceded the Florian.

If you don't need the power of regular expressions, you can choose faster (albeit simpler) alternatives like `explode()` or `str_split()`. Tip If matching fails, an array with a single element containing the input string will be returned.

### **PHP: preg\_split - Manual**

In computer science, program optimization, code optimization, or software optimization is the process of modifying a software system to make some aspect of it work more efficiently or use fewer resources. In general, a computer program may be optimized so that it executes more rapidly, or to make it capable of operating with less memory storage or other resources, or draw less power.

### **Program optimization - Wikipedia**

To type faster, start by taking an online typing test to determine how many words per minute you can type. Then, as you try to get faster, you'll have a benchmark you can use to measure your progress. Try setting aside at least 10 minutes every day to practice typing, which will improve your speed and accuracy over time.
