OBD-II Trouble Code: P0440 Evaporative Emission Control ...

The P0440 code indicates that there is a large leak in the EVAP system, but this is somewhat misleading. What the code really indicates is that the EVAP system will not create a significant vacuum when it performs its leak test, as monitored by the Fuel Tank Pressure Sensor. Here is how the evaporative leak test is performed by the Powertrain Computer:

P0440 - OBD-II Trouble Code

P0446 PONTIAC Meaning. The Powertrain Control Module (PCM) monitors the performance of the Evaporative Emission (EVAP) system by applying a predetermined level of vacuum to the EVAP system then monitors the vacuum decay rate.
