What Is Chinese Cabbage? The scientific name for Chinese cabbage is Brassica rapa. Napa cabbage, the most common variety, is the subspecies pekinensis. The name is most likely derived from the Japanese word nappa—meaning leafy green—rather than a location, which is why it's not capitalized. You may also see it labeled as Chinese white cabbage, Peking cabbage, or celery cabbage.

What Is Chinese Cabbage and How Is It Used?

Using a squat toilet can be a new experience for most westerners. The unfamiliar shape, style and method of use are largely unknown to those who live outside areas where these toilets are the preferred style. By default, non-Chinese, Japanese, or Korean versions of Photoshop hide options for Asian type that appear in the Character panel and Paragraph panel. To view and set options for working with Chinese, Japanese, and Korean type in these versions of Photoshop, you must select Show Asian Text Options in the Preferences dialog box.

Asian type in Photoshop

Chinese input methods are methods that allow a computer user to input Chinese characters. Most, if not all, Chinese input methods fall into one of two categories: phonetic readings or root shapes. Methods under the phonetic category usually are easier to learn but are less efficient, thus resulting in slower typing speeds because they typically require users to choose from a list of phonetically similar characters for input; whereas methods under the root shape category allow very precise and sp

Chinese characters can be written either vertically or horizontally, so the Chinese punctuation marks change position depending on the direction of the text. For example, parentheses and quotation marks are rotated 90 degrees when written vertically, and the full stop mark is placed below and to the right of the last character when written vertically.

All About Common Chinese Punctuation Marks

Chinese five-spice powder may have originally been used medicinally to balance yin and yang. Five is considered to be a number associated with healing properties. It has been integrated into Chinese and Taiwanese cuisine and it is also used in Vietnamese cuisine and in other parts of Asia.
