MacCaw also covers Node.js, Socket.IO, and WebSockets. Moreover, he also provides an examples on testing, debugging your apps, as well as a look at the Backbone and Spine.js (which he created) libraries.

Review of JavaScript Web Applications by Alex MacCaw
SEO in JS Web Apps. JavaScript and search engines have always had a tricky relationship, and SEO is often used as an argument against single page applications. I’m aiming to put some of those misconceptions to rest in this article and show you that it’s perfectly possible to create a pure JavaScript web application and still have good SEO.
