LaTeX Templates » Academic Journals

Find an example document similar to the document you want to write. For example, a PH.D. dissertation written in LaTeX may be a set of files or a single file. The file with the '.tex' extension will be the one containing the actual document. Example documents can be found at these useful sites: IIT Bombay, Univ. of Michigan, and many more.

How to Use LaTeX for Text Formatting: 6 Steps (with Pictures)

Based on my comments, here is an answer. To write a document class, all you need (really) is to create a file, say, myclass.cls, and put it in the same place as your document; then it can be loaded with \documentclass{myclass} and any macros defined in it will be available to the document. The document clsguide.pdf that Higgs Boson linked describes all the various structured commands you ought ...
