As the evidence compiled in this research paper shows, declawing your cat is not a quick fix to prevent them from scratching. It is an extremely painful procedure that will leave your cat with long-term mental and physical distress for their life, while potentially causing even more problems for the cat owner.

Declawing Cats - Term Paper

Cats, however, are more independent. When cats go off by themselves they rather not be around anyone else and then they get into mischief. That’s where the saying “Curiosity killed the cat” came from. Cats bathe themselves, use a litter box, and are self-teachers.
